ABOUT THE RELAY.

The Racers Were Really Over Four Boars

Ahead Bere.

In getting up the schedule for the big

Washington-Denver cycle relay race, a number of inaccuracies appear which were not atfirst noticeable, and by it. Wheeling riders would, on the face of the thing, appear to suffer. For instance the schedule puts the distance between Cumberland and Wheeling at 87 miles when everybedy knows it is 137, or filty miles more than the schedule calls for. Consequently the less of time between the two places is explained. At Cumberland it will be remembered the racers were 3:30 abead of time, while at Wheeling the gain amounted to but 1:10. At a rattling good pace it would take at least three hours to do that extra filty, so that the boys were really 4:10 ahead of the schedule at Wheeling. That filty miles must have been worked in between Zancsville and Richmond, Ind., as the schedule makes the distance 250 miles, when it is really about 190 miles. Wheeling riders would, on the face of

the distance 250 miles, when it is really about 100 miles.

This mixing up of figures explains the enormous and apparontly impossible gains made west of Columbus yesterday, amounting at Richmond, Ind., to 14:18. As it is, the cain of ten hours makes the performance of the Ohio riders a wonderful ona. With good weather it is now confidently expected the relayists will arrive at their destination. Denver, from 24 to 48 hours ahead of the schedule.

J. A. McGinnis, who took the relay between Blaine and St. Clairsville on Tuesday afternoon, with en route to his post had an exciting battle with a wagon bolt which was lying on the roadway. It ended in a badly punctured tire, and for awhite it looked as though McGinnis would not be able to take up the thread of the race, but some skillful and rapid repair work was done, and, when "Jack" Laue came along, McGinnis' wheel was repaired. done, and, when "Jack" Lane can along, McGinnis' wheel was repaired.

Kennedy's Grand Pitching

BROOKLYN, August 8.—The Brooklyns lost two games to the Baltimores to-day. The home players moved about as if they did not care whether they won or not. Konnedy pitched grandly in the first game, but his support was so apothetic that he never had a chance to have another victory chalked up to his credit. In the second game an amateur by the name of Summerville essayed to pitch for the home team. After giving five bases on balls and two safe lits being made out him with only one out, he was taken out and Daub substituted. Attendance 3,500.

MARM BATHER ISDOM.

COME MERCHANTS would have you believe that trade enters a condition of torpidity about July 1, and re-mains so till the cool days of September wake it to life and activity again.

But, begging your pardon, that is not true. There is no season of the year in which people do not buy goods; there is no season in which they do not want them. By the same token, there is no season in which it will not pay to advertise.

However, if your neighbor has this old-fashioned notion, and is too conservative to advertise now, there is all the better chance for you. If you think people are not hunting bargains in warm weather, try it.
